Game is pretty fun until you reach the second mission and there exists a game breaking glitch where the website you are supposed to visit is forever down for maintenance. Someone complained to a dev and he got mad.

Dude, you released a broken game and charged people for it, don't act like a \u2665\u2665\u2665\u2665\u2665\u2665 You're the \u2665\u2665\u2665\u2665ing \u2665\u2665\u2665\u2665\u2665\u2665.. @start was vey good but then it became boring :S. Company refuses to release new verisons of this game.. Bad, Crashes all the time.. Very fun and awesome game. Works like a charm so far but there is one big issue.

ALWAYS ONLINE single player.

So if you dont have an internet connection you cant play single player career mode. There are a few modes i've read you can play but you cant play the career mode.

So for game play wise i do recommend this game. But if i knew it was ALWAYS ONLINE to play singleplayer. I would not have bought it and i wont recommend the game because of this. I hope this will be removed from the game.. Originality and quality make this Indi a must have! try and see =)

So it's a pinball game. Well, it's not that great one. I remember quite clearly that I switched my resolution to highest in the options. Went to play it and it was the lowest. Ain't that fun. Another big problem is the registration thingy at first launch which is just such a pain. All in all, it's clearly not the pinball game of your dreams.

Lil' sucky gameplay to go with the review.

<https://www.youtube.com/watch?v=Ko2dqhaCMbk>. Highly recommended 8-player game. This is one of the few couch games you can play locally with 8 friends and have a blast. If you have the controllers and the setup, this is the game to play. It's similar to Bomberman but with tons of team battles and various modes. Played this game at PAX and just played it 5 hours straight last night with some buds. Well worth your money!. One of the few RPG games that really want to play. The Millennium - A New Hope has it all: interesting characters, dialogues, interesting locations and thoughtful story, which is rare in most games of this genre.

Game of the studio Aldorlea Games, though the structure is similar to other games RPG Maker, but the original, addictive game, I want to read the dialogue, it would be desirable to explore the world and its surrounding.

There's achievement, cards, SteamCloud.

Immerse yourself in the interesting world of adventure!. This game is freekin fantastic! I have not played it without the Renaissance Mod so I don't know if it sucks without it. It's like the ultimate mod for Civ 5 - war with fantasy and magic, and none of the bothersome crap like religion and making your pops happy.. This game was pretty fun, but only for about an hour. Unlocks took a bit too long to unlock. I was already bored of my existing weapons by the time I got the new ones. The game lacks any real ability to bring yourself back from poor performance so it misses out on the rush of a comeback that games like Crawl do so well. Surviving a level was always overshadowed by "well now my health is low for the next level." The sheer amount of enemies can be a little overwhelming so I always ended up missing the enemies that really mattered until it was too late, which would be forgivable if all punishments didn't hurt your entire run. I also may have been missing enemies because the camera is not centered on the player, but enemies can still come from the short side of the screen which gives them an arbitrary advantage. Ultimately it just ended up feeling like a slow crawl towards inevitable death and that crawl didn't feel particularly engaging.. Played it for a bit. It is a neat concept, but it is pretty bland. I was hoping for a little more story/drama in it and maybe better humor. But I guess that is what you get for a cheap game like this.

Sadly I can't recommend this game. There are better fantasy visual novel games out there or better visual novels to themselves.. I'm very glad this game is not dead yet.

Yes, the population is low, but I still was able to get into a game at the time of writing and have a couple of pleasant matches.

Today I've killed few guys hipfiring my scout bolter in panic, I defended an objective alone, I supported my battle brothers. The atmosphere of WH40k is so very strong in this piece of work, that details like fine pvp balance some people write about are really not that important or relevant.

I'm here to ride a Rhino into battle, provide covering fire for my brothers while they storm heretic-held objective with the name of The Emperor on their lips. This game, for a short while, gets me into the WH40k world, and for that I love it.

Yes, maybe there are better shooters out there, but is there a better WH40k shooter out there?

Hell no.

This is the best WH40k shooter known to man.

(If you know a better one, let me know in the comments please :). Ahhh nostalgia at its finest. Easily one of the best from the original xbox, if you have not played get it now!. I really like this. It's not something I'd play more than once, but it makes for a nice demo. The Halloween update was too scary for me. I would love to see a Christmas edition.

### **The checkpoint update:**

Singularity 1.1.1 is finally live with the following highlights:

-Remapped and added checkpoints to avoid repetition of cinematics - get straight back into the action! Checkpoints that just skip the introduction cinematic will not influence the score.

-LIV mixed reality compositing support (streamers please get in touch if you need support!)

-Added controls map to main menu

---

**Bug fixes:**

-Fixed Arachnoid disappearing in level 4 when the hint to beat the shield phase appeared. A big thank you to everyone who helped report this bug.

-Removed unwanted sound when starting or using checkpoint in level 4

-Fixed title display in level selection

-Fixed spelling in level 1 grenade tutorial. **Easy mode update:**

**Easy mode addition**

Hi everyone, the last Singularity 5 update added an easy mode to the game!

We wanted the game to be challenging, and we think it's best enjoyed when your virtual life is on the line! But we realise the difficulty was a little steep for some players. Hopefully easy mode can provide a good training ground and help beginner players or just those who want to relax and enjoy the game without stress.

Easy mode will reduce the number of enemies, but it will half your final score.

This comes with a few bug fixes as well, you can now shoot the drone grenades normally to get rid of them.

Enjoy, and thank you for your feedback!
